CMNZ70151

BRANZ Appraised
Appraisal No. 819

EQUUS SOPREMA SOPRASUN PLUS is a cost-effective APP two-layer membrane system for exposed flat roofs, delivering durable, UV-resistant waterproofing for commercial, industrial and residential projects. Designed for New Zealand conditions, SOPRASUN PLUS provides reliable long-term performance and excellent value.

The torch-applied system combines a compatible base sheet with an APP-modified bitumen cap sheet to create a robust waterproofing solution. Slate finishing provides UV protection and a consistent grey finish, while the APP compound offers excellent dimensional stability and durability.

Suitable for plywood and concrete substrates, SOPRASUN PLUS can be specified as a conventional roof assembly or as part of a SOPRATHERM Warm Roof system to improve thermal efficiency and condensation control. The system is CodeMark Certified, BRANZ Appraised and supported by a 20-year Equus warranty.

Available Colour:

Grey

Key Product Benefits:

- Economical two-layer APP membrane system
- Proven UV resistance with coloured slate finish
- Excellent dimensional stability
- Durable membrane for exposed flat roofs
- Suitable for plywood and concrete substrates
- BRANZ Appraised and CodeMark certified
- Supported by a 20-year Equus warranty

Technical Support:

- Project-specific specifications & details
- Approved installation nationwide & onsite QA
- System warranties
