

# Specification

## **Methodology Statement**

### E-1 SPECIFICATION EXTERIOR WALL AREAS - Acrylic

**July 2019** 

#### 1.0 PREAMBLE

This specification is for the application of a minimum three (3) coat **Chevaline Coverall / Colourglaze** System as a long-life easy-maintenance waterproof coating system on new concrete panel surfaces

#### 2.0 EQUUS COATING INSTALLATION PROCEDURES for exterior concrete panel surfaces

- Waterblast clean all surfaces at 3000psi.
- Confirm that all panels are contaminant free before proceeding.
- Plaster concrete defects and chipped concrete with Equus plaster finishes or similar approved.

#### Consult Equus for accurate detailing procedures.

- Ensure any new sealants have had a 5-day cure period before painting
- Apply a Chevaline Coverall Primer 50/50 coat to the concrete at 8 m<sup>2</sup> per litre to all surfaces
- Apply the second coat of Chevaline Coverall Bodycoat at 4 m<sup>2</sup> per litre to all surfaces.
- Apply the third coat of Chevaline Colourglaze Topcoat at 10 m² per litre to all surfaces
