

SPECIFY WITH CONFIDENCE: EQUUS FLOORING SYSTEMS

Solutions for every surface. Support for every stage.

Why Choose Equus

Since 1982, Equus Industries has led the way in advanced waterproofing and protective coating technologies across New Zealand. Our flooring systems are trusted in residential, commercial, and industrial spaces—from hospitals and carparks to design schools and private homes.

With a full-service support team, certified nationwide applicators, and international technology partners, Equus offers robust, customisable flooring systems that meet the highest design and performance standards.

EPOXY FLOORING

Ideal for light to medium-duty applications, the Epistixx range delivers fast-curing, hygienic surfaces approved byASUREQuality and Clean Room Standard ISO 14644.

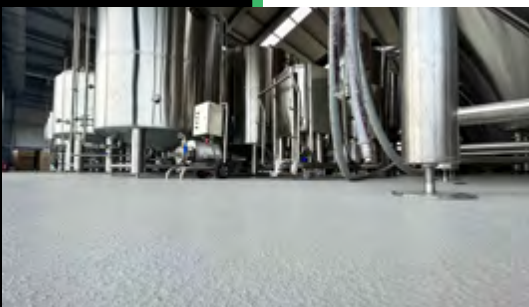

- Epistixx Rapid / Rapid NS – Glossy or non-skid waterborne epoxy finishes
 - Epistixx SL – Solvent-free, self-levelling epoxy for durability
 - Epistixx CP – Semi-gloss finish tailored for carparks and drive-on areas
- ✓ NZ Made
 - ✓ Custom Colour Matching Available

POLYURETHANE FLOORING

Designed for hard-wearing industrial environments with options from coloured sealers to self-levelling finishes.

- Traxx SL – Heavy-duty, self-levelling floor coating
 - Traxx 2000 Topcoats – From pedestrian zones to carpark wear layers
 - Traxx Clearseal & Colourseal – Protective sealers for concrete and stone
- ✓ Resistant to abrasion, chemicals, and traffic
 - ✓ Ideal for cleanrooms, workshops, and healthcare spaces

INDUSTRIAL & HYGIENIC FLOORING

Engineered for performance in the toughest settings.

- Duracon MMA Flooring – Rapid-cure, slip-resistant systems
 - Monopur SL – Antimicrobial, self-levelling polyurethane resin flooring
 - Matacryn – Liquid-applied PUMMA for carparks, balconies, and walkways
- ✓ Hygienic and chemical resistant
 - ✓ Thermal resistance from -40°C to 120°C
