

# EQUUS SOPREMA DESIGN AND CONSTRUCTION TECHNICAL SUPPORT

**FOR SMALL  
OR LARGE  
PROJECTS!**

## SPECIFYING WITH EQUUS

At Equus and Soprema, we take pride in offering a high-quality range of products that cover all aspects of the building envelope. When specifying with Equus, you benefit from a single point of contact for multiple areas of your project, ensuring seamless collaboration among designers, contractors, installers, and other partners. Our comprehensive design service and technical expertise provide peace of mind, guaranteeing that all solutions are fully compatible and work harmoniously throughout the project.

## DESIGN STAGE SUPPORT

We provide tailored solutions for your specific needs, including:

- Comprehensive specifications for waterproofing, protective coatings, insulation, wall membranes, and flooring.
- Project-specific Building Compliance Pathway Document (ECPD), simplifying the building consent process and minimising RFIs, with:
  - Specifications through Masterspec, or a custom Word document.
  - Detail reviews, and a condensation risk analysis and wind uplift calculations for warm roofs.
  - BPIR compliant product documentation, CodeMark certification, BRANZ appraisals, and other testing reports.

## PERFORMANCE & DETAIL DESIGN

Our technical team ensures your project meets all performance requirements:

- Thermal reports to confirm compliance with H1 Energy Efficiency.
- Wind load calculations to meet NZS1170 Wind action standards.
- CodeMark certified warm roof systems with a minimum finished fall requirement of 1:80 (0.72°).
- Review and advice for roof or below-ground waterproofing details, even for complex scenarios, with support from Soprema's global technical network.

## CONSTRUCTION & QUALITY CONTROL

Support extends to construction with:

- Nationwide network of Certified Applicators and assistance during the tendering process.
- Pre-start meetings and ongoing site inspections to ensure quality installation.
- Job-specific quality assurance documents and optional Electronic Leak Detection-ready systems.

## BUILDING CONSENT MADE EASY

Equus handles all documentation, providing a job-specific Building Compliance Pathway Document and quick responses to any RFIs, ensuring a stress-free consent process.

***And yes, all of this support is provided at no additional cost!***
