

# EQUUS TRAXX FLOORING SYSTEM AND PRODUCTS

Hard wearing, chemical resistant, polyurethane floor coatings

## Flooring Systems:

- **Traxx Flooring System**

The Traxx Flooring System is a durable, chemical, and abrasion-resistant floor coating solution designed for a wide range of applications. This single-component system is available in smooth finishes as well as three grades of non-skid options, ensuring optimal safety and performance. Customisable topcoat selections allow it to be tailored to meet specific end-use requirements, making it versatile for residential, commercial, or industrial settings.

- **Traxx SL Flooring System**

The Traxx SL Flooring System is a robust, two-component, self-levelling floor coating solution engineered for heavy-duty industrial use. With exceptional chemical and wear resistance, this pourable system ensures a seamless, smooth finish that can withstand the rigors of demanding environments, such as factories, warehouses, and processing facilities.

## Floor Coatings:

- **Traxx Colourseal**

Colourseal is a pigmented, waterborne acrylic sealer specifically designed to protect and enhance interior and exterior concrete or cementitious surfaces. Perfect for refurbishing stamped concrete driveways, and restoring colour to old cobblestones, making it an excellent choice for both residential and commercial refurbishments.

- **Traxx Clearseal**

Clearseal is a clear, waterborne acrylic sealer that provides durable protection for interior and exterior concrete or cementitious surfaces. Its resistance to contaminants, including petrol, makes it the ideal choice for exposed aggregate driveways, ensuring long-lasting performance and a polished appearance.

- **Traxx Slateseal**

Slateseal is a clear, waterborne acrylic sealer expertly formulated to seal slate and natural stone surfaces. It enhances the natural beauty of the material while improving water resistance and protection, offering a perfect solution for maintaining the aesthetics and durability of stone features in any setting.

## Key Benefits:

- 100% NZ made
- Proven durability with over 40 years in service history
- Easy to clean and maintain
- Economical floor coating option
- Chemical resistant and hard wearing
- Non-slip grades available
- Hygienic floor coating
